- ☐ North American Lyme disease[1]
- ☐ European Lyme disease[1,2]

IFA
- ☐ *Anaplasma phagocytophilum*
- ☐ *Bartonella henselae / Bartonella quintana*
- ☐ *Coxiella burnetii* (Q fever)
- ☐ *Ehrlichia chaffeensis* [1]
- ☐ Spotted fever rickettsiae
- ☐ Typhus group ricketssiae

COMMENTS

[1] Samples not accompanied by relevant patient and travel information may be subject to rejection. For current acceptance criteria, please refer to the NML Guide to Services

[2] Analysis is only performed if an approved ELISA is positive or equivocal.

The National Microbiology Laboratory (NML) of the Public Health Agency of Canada (PHAC) provides reference diagnostic services free of charge. The Client and NML agree that this requisition acts as an agreement for the NML to provide testing, as described in the Guide to Services, for the above requested tests.
