October 21st, 2022

Clients of the Viral Exanthemata and STD Section
National Microbiology Laboratory

Dear Client,

The Varicella-Zoster virus (VZV) Glycoprotein Neutralization by Enzyme Linked Immunosorbant Assay (ELISA) test will be discontinued on October 21st, 2022, as the manufacturer has discontinued production of the commercial kit used to perform the test.

Please do not hesitate to contact me if you have any questions about this change.

Best regards,

Dr. Alberto Severini
Chief, Viral Exanthemata and STD Section
